HabasiLINK®

Solutions for the Fruit & Vegetable Industry

Oblong Hole

Conventional Design

HabasiLINK®

Improved Design

Habasi's patented design improves access to the rod and hinge area during sanitation.

Applications

- Primary & Secondary Wash
- Inclines & Elevators
- Grading & Sorting
- Coolers, Sterilizers & Exhaust Boxes
- Container Handling
- Metal Detectors

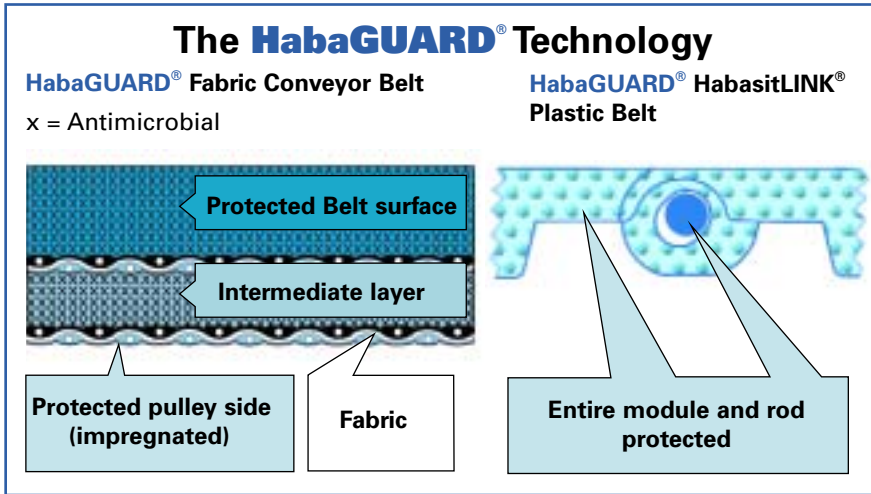

Why HabasiLINK® plastic modular belts?

HabasiLINK® plastic modular belts are sprocket-driven for positive drive and tracking which virtually eliminates problems associated with mistracking that can lead to belt damage. Flights are assembled as an integral part of the belt, and can be replaced with a minimum of downtime without complicated tools or equipment. The all-plastic design provides maximum corrosion and abrasion resistance, while eliminating concerns of metal contamination.

Belt surface styles range in open area from 18% to 40% to maximize drainage without compromising belt strength. Belt materials are available in unique colors to provide visual contrast between the belt and the product. All materials are FDA approved and are designed for a wide range of operating temperatures from -90°F to 220°F.

Have You Done All You Can?

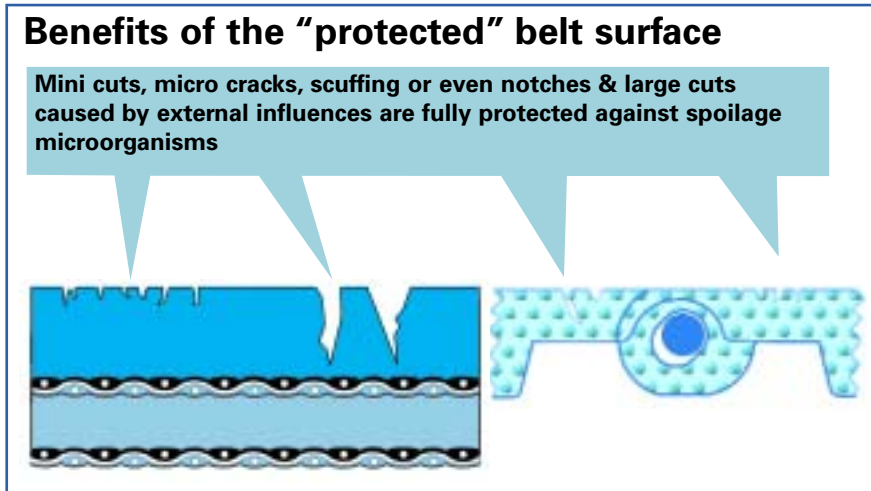

If you are concerned that your belts may be conveying more than just your product – The Solution is Habasit

HabaGUARD® conveyor belting contains an antimicrobial additive that prevents growth of spoilage microorganisms on belt surfaces. The antimicrobial in **HabaGUARD®** prevents mold proliferation, the related odors, discoloration and degradation of belt surfaces.

The antimicrobial in **HabaGUARD®** is the only additive approved and EPA-registered for direct food contact. **HabaGUARD®** belts provide the highest level of food safety, belt protection and cleanability in the marketplace today.

The effectiveness of the **HabaGUARD®** antimicrobial additive will continue throughout the operating life of the belt.

This product does not protect users or others against food borne or disease causing bacteria. Adhering to proper cleaning procedures is always essential.

Application Guide

Belt Style #		Pre-wash	De-watering	Inclines & elevators	Accumulation table	Exhaust box	Metal detectors	Grading & Inspection	Packaging	Palletizer & depalletizer
Series 1200 0.5" Belts										
M1220	Flat Top			PP			PP	PP	PP	AC
M1233	Flush Grid	PP	PP	PP			PP		PP	AC
Series 2500 1" Belts										
M2510	Flat Top			PP			PP	PP/PE		
M2511	Perforated Flat Top	PP	PP	PP/PE		PP		PP/PE		
M2520	Flat Top			PP			PP	PP/PE	PP	PP/AC
M2533	Flush Grid	PP	PP	PP/PE		PP	PP		PP	AC
M2500	Friction Top			PP					PP	
M2531	Raised Rib				PP	PP				PP/AC
M2540	Radius Flush Grid								PP	
Series 3800 1.5" Belts										
M3840	Radius Flush Grid								PP	
Series 5000 2" Belts										
M5010	Flat Top			PP/PE			PP	PP/PE	PP	
M5011	Perforated Flat Top	PP	PP	PP/PE						
M5013	Cone Top			PP						
M5014	Nub Top			PP/PE				PP		
M5020	Flat Top			PP/PE	PP		PP		PP	PP
M5020	Grip Top									PP
M5031	Raised Rib				PP	PP				
M5032	Flush Grid Heavy Duty	PP		PP/PE		PP	PP		PP	PP
M5033	Flush Grid	PP	PP	PP/PE		PP	PP	PP/PE	PP

PM135RCOS+H15 (white or tan)				x			x	x	x	

Conveying Quality - Habasit is the only company that offers both Domestic and European fabric belts as well as plastic modular belts. We manufacture from virgin raw materials to ensure products that meet our standards. We offer many different training opportunities to enhance or maintain the level of belting knowledge at your company.

Conveying Service - Habasit has expert Distributor partners throughout the US who are committed to providing the best service, local inventories, belt installation capabilities, 24 Hour delivery service, and strong application and troubleshooting knowledge. Chances are that one of our partners is your neighbor. If you prefer to install your own belts, Habasit can supply you with splicing equipment that we manufacture specifically for preparing and splicing our belts on-site, and the necessary training to help your people become fabrication ready.

Conveying Solutions - Contact one of our Product Managers, Market Managers, Engineers, District Managers or Authorized Distributors for the optimal solution for your application. The breadth of our product line allows us to recommend the right belt for each application.
